# ACOUSTIC WALL

Our Acoustic Wall Panels are designed to elevate the aesthetics and functionality of any space. Whether in a home, office, or public venue, these panels not only enhance sound quality but also add a touch of elegance to your interior design. Engineered to reduce noise levels, our panels effectively absorb sound, creating a quieter and more comfortable environment.

# WOODEN FLOOR

## BENEFITS

Wooden floor panels provide excellent insulation, are easy to clean, and can enhance the value of a property. They also contribute to a warm and inviting atmosphere in any space. Wooden panels can be installed using various methods, including nail-down, glue-down, or floating installations.

## MAHOGANY

Mahogany wood is a premium choice for flooring, celebrated for its rich, warm tones and striking grain patterns that add elegance to any space. Its natural luster and ability to take on finishes beautifully enhance its aesthetic appeal, while its sustainable sourcing options make it an environmentally friendly choice.

## KERUING

Keruing is a robust hardwood from the Dipterocarpus genus, commonly found in Southeast Asia. It is characterized by its high density and strength, making it suitable for high-traffic areas.

# WOODEN DECK

Provide a natural and warm ambiance, making them ideal for patios, balconies, and garden spaces. The use of wooden deck panels enhances outdoor living areas, allowing homeowners to create inviting spaces for relaxation and entertainment.

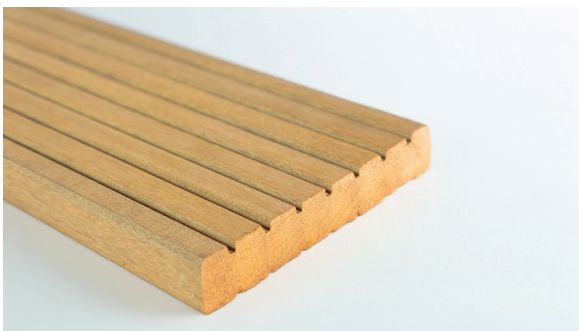

## MERBAU

Merbau wood is an excellent choice for decking, renowned for its exceptional durability and resistance to harsh weather conditions. Its rich, reddish-brown hue and distinctive grain patterns create a visually appealing surface that enhances outdoor spaces.

## TEAK

Keruing is a robust hardwood from the Dipterocarpus genus, commonly found in Southeast Asia. It is characterized by its high density and strength, making it suitable for high-traffic areas.

## BANGKIRAI

Offers excellent durability against weather and moisture, along with high structural strength, making it highly suitable for decking that requires extra resilience in outdoor environments.

# YOUR JOURNEY BEGINS HERE

We'd love to hear from you! Whether you have questions about your ideas, need more information about our products, or want to discuss potential partnerships, get in touch with our team is here to assist you.
